Bachelor's Degree in Corporate Communication

University Lyon 3 - France

Professional Experience

April 2024 - Present

Professional Projects I Berlin, Germany

Full-Stack Developer

- Built responsive applications using Javascript, React, Angular, TypeScript, Node.js, and Express, including an invoice app integrating RESTful APIs for seamless data management.
- Developed robust front-end interfaces with modern CSS frameworks (Bootstrap, Tailwind CSS) and ensured mobile-first, accessible designs.
- Implemented user authentication, data validation, and secure backend solutions, focusing on reliability and performance.
- Worked under the weekly guidance of a mentor and tutor, receiving tailored feedback on code quality, industry best practices, and professional trends in web development.
- Applied Agile methodologies and TDD practices to create unit and integration tests, ensuring high-quality deliverables.

ctrl QS I Berlin, Germany

Product Owner Support (Jul 2023 - Mar 2024)

- Assisted the Product Owner in defining product vision, roadmap, and growth opportunities for a key client project.
- Collaborated with developers to define feature requirements and acceptance criteria, improving product quality and team alignment.
- Translated business needs into user stories and prioritised backlog items for efficient development cycles.
- Participated in Agile ceremonies, incl. sprint planning, reviews, retros, ensuring timely delivery of deliverables.
- Wrote technical documentation and streamlined workflows in JIRA to support development processes.

Digital Team Lead (Feb 2018 - Mar 2024)

- Led the delivery of international website relaunches and feature updates for 40+ markets, coordinating with development teams to ensure scalability and accessibility.
- Worked closely with technical teams and product owners to prioritize features, troubleshoot issues, and implement solutions.
- Managed a team of 15 specialists, fostering growth and guiding successful project delivery within Agile frameworks.
- Strategically managed account budgets, resources, and project timelines, optimizing efficiency and profitability in alignment with company objectives

Experience

○ **Technical Project Manager** (May 2015 - Jan 2018)

- Planned and executed global website rollouts, relaunches, and content migrations, focusing on operational efficiency and seamless integration.
- Developed testing protocols and identified solutions for technical challenges, ensuring smooth project execution.
- Partnered with developers and designers to translate client needs into technical requirements and implement them effectively.

Feb 2012 - Sept 2014

Uzful I Montreuil, France

○ **Digital Project Manager**

- Managed the conception, design, and development of websites and mobile applications, ensuring timely and high-quality delivery.
- Acted as a liaison between clients and cross-functional teams, including developers and designers, to deliver user-centered solutions.
- Conducted technical and strategic benchmarks to identify opportunities for client projects.

Feb 2010 - Sep 2010

Uzik I Paris, France

○ **Digital Project Manager**

- Collaborated with clients and cross-functional teams (designers, copywriters, and developers) to deliver web projects aligned with client needs and industry standards.
- Translated marketing and commercial requirements into actionable technical briefs, ensuring clear communication and successful project execution.
- Conducted technical and strategic benchmarks to identify opportunities for innovative solutions and client growth.
